EDUCATION

Software Engineering - Computer Engineering (5th year)

Sep 2020 – Jul 2025

National School of Applied Sciences (ENSA)

Agadir

Applied Sciences Baccalaureate

2020

Elaraki School

Marrakech

SKILLS

Languages Java | JavaScript | TypeScript | Python | C++ | C#

Frontend React | React Native | Expo | Redux | Next.js | Tailwind CSS | Ionic

Backend Spring Boot | Node.js | BFF Architecture | REST APIs | Microservices

DevOps & Tools Docker | Git | Linux | Keycloak | OAuth2 | CI/CD

Databases PostgreSQL | MySQL | MongoDB | Oracle DB

EXPERIENCE

Sopra Banking Software (SBS)

Mar 2025 – Present

Software Engineer

Casablanca

- Joined as an intern and converted to full-time Software Engineer following successful delivery of the initial project phase.
- Sole frontend developer on a production enterprise mobile banking application for CIH Bank, owning the entire React Native codebase end to end.
- Built and maintained the mobile frontend using React Native, Expo, and Redux, enabling bank branch managers to process and validate overdraft folders in real time.
- Designed and implemented Backend-for-Frontend (BFF) services using Spring Boot, handling request routing, mobile user enrollment, and push notification delivery.
- Integrated Keycloak OAuth2 for secure authentication and authorization across the mobile application.
- Following team lead departure, took ownership of production coordination — directly liaising with the DevOps team to manage deployments and resolve production incidents.

Amenal LLC

Feb 2024 – Jul 2024

Full-Stack Developer Intern

Agadir

- Built a cross-platform web and mobile application for construction project management, covering budget tracking, purchase management, invoicing, and payment oversight.
- Delivered both mobile (React Native) and web (React) interfaces from a single codebase, integrated with a Spring Boot backend and relational database.

NOTABLE PROJECTS

Personal Portfolio Website

2025

Next.js, Tailwind CSS, Vercel

- Designed and deployed a responsive personal portfolio using Next.js and Tailwind CSS, hosted on Vercel with automated CI/CD pipeline.

Simplified Compiler for a Custom Language

2024

C++

- Implemented a compiler from scratch including lexer, parser, and AST generation for a custom-designed language, with code generation targeting a low-level output using C++.

Gym Management Application

2023

Java / JavaFx

- Built a Java desktop application for gym client and offer management with authentication, following OOP design patterns.

CERTIFICATIONS

- **IBM** Application Development using Microservices and Serverless — Professional Certificate
- **HackerRank** Software Engineering Intern
- **HackerRank** Problem Solving
